The following samples are examples of real JWU student resumes that will familiarize you with the many different resume formats and styles.

Our goal is to get you started and provide ideas on how to strengthen your resume. We are providing samples here, It is important that you make **your resume your own**. The key to getting an interview is to target your resume when applying for a job or internship. You must get the employer's attention within **6 – 7** seconds by outlining what YOU can DO for THEM.

Review the section on Applicant Tracking System (ATS) found in the Undergraduate Resume Guidebook at: link.jwu.edu>jobs & internships>build your resume, to ensure your resume follows ATS rules for posting your resume to online job sites.

No matter what your major, be sure to scan through all of the resume examples, as you are sure to find ideas in each of them to use in your own, unique resume.

Note: These resumes are samples. If your major is not represented in the samples, please work with an EE&CS Advisor to assist you.
