HAVE AN INTERVIEW?

Interviewing on-campus this afternoon?

Ask any Experiential Education & Career Services staff member here today for last minute advice!

INTERVIEWING TIPS

What Interviewers Look For:

- Positive attitude
- Appearance: neatness, posture, & dress
- Self-Expression: ability to express thoughts clearly, concisely, & effectively
- Motivation: initiative, drive, enthusiasm, energy, & desire to succeed

Smile and good luck!

Tips for Conveying Confidence:

- An interview is centered on the subject you know best - YOU!
- Know your strengths & own your weaknesses
- Be positive
- Preparation is the key to overcoming nervousness & fear of failure
- Trust yourself to react properly

BE PREPARED FOR THESE QUESTIONS

Tell me about yourself?

What they're really asking is: What makes you special? Why should we hire you?

Tip - Prepare several selling points about yourself. Give a quick elevator speech that overviews your experiences and achievements these past four years at Johnson & Wales University.

Where do you see yourself five years from now?

What they're really asking is: Are you committed to staying here for a while?

Tip: Be aware that they will not hire someone who will be around only for a year or two. Show flexibility and eagerness to learn new things. Express your interest in doing the current job to the best of your abilities.

ALWAYS HAVE QUESTIONS FOR THE INTERVIEWER

What are you looking for in the ideal candidate for this position?

What do you like best about working for this organization?

These are just a couple examples. Feel free to think about what YOU would like to ask...
