

# Congratulations on your acceptance to Johnson & Wales University.

As you may already be aware, there are specific **Health Services requirements** that you must fulfill before you begin your first semester of study at the university. These requirements include

- A complete Health History Form
- Two doses of the MMR (measles, mumps and rubella) vaccine (or titers if applicable)
- Three doses of hepatitis B vaccine (or titers if applicable Charlotte Campus does not accept titers)
- Providence Campus: One Tdap dose
   Charlotte Campus: Three doses of tetanus-diphtheria vaccine including one Tdap dose
- Two doses of the chicken pox vaccine (or titers if applicable) or proof of medical provider-diagnosed disease
- Meningitis vaccine. If you received your first dose prior to age 16, a booster is required.
- For entering students who are from countries where tuberculosis is highly endemic and who have been residents of the United States for less than five (5) years: Negative TB test or chest x-ray within the last year. A list of countries where tuberculosis is highly endemic is available upon request from Health Services and as a listed resource in jwuLink.
- **Charlotte Campus only:** Any student who is under the age of 18 upon enrollment must submit proof of the polio vaccine series.

### **Recommended Vaccines**

Please check with your medical provider as to whether these vaccines are appropriate for you:

- · Meningitis type B vaccine
- · Hepatitis A vaccine

#### **Additional Information**

- JWU courses incorporating foods or beverages may use edible or cleaning products that constitute or
  contain allergens. Any student enrolling in such a course who has a serious or life-threatening allergy
  should contact Accessibility Services as needed to discuss the possibility of accommodations or
  adjustments; further discussion with the relevant faculty member or other administrative personnel
  may be necessary.
- Instructions on how to submit your health forms can be found on **jwuLink** under **Your New Student Tasks**.
- Information on religious, medical and temporary exemptions can be found on health.jwu.edu.
- In addition, if you plan to participate in varsity or club athletics (not intramurals), please complete the Athletics Health History Form at the end of this form.

You are required to return the completed Health History Form inclusive of your immunization history to Health Services by the financial clearance date prior to the semester start date. For students who move into campus housing prior to the financial clearance date, you must return the complete Health History Form to Health Services at least 3 weeks prior to your arrival on campus. You must complete Pages 1, 3, and 4, and your medical provider must complete Page 2. If you are under 18, your parent's or legal guardian's signature is required on the bottom of Page 1.

Failure to submit a completed Health History Form inclusive of your immunization history by the university's deadline will result in an inability to register for classes or select on-campus housing until the required documentation/records have been submitted. Students will not be allowed to begin the semester on campus without such required documentation.

For additional information about health services at each campus, visit **health.jwu.edu** and select the campus where you will be enrolled. Also, for information regarding accommodations for students with disabilities, please contact the Accessibility Services.

We look forward to welcoming you to the university community.
