## Fully Online Courses:

Course sites for courses that are taught entirely online are available for students three days before the start of the course. Prior to that, if you log into ulearn, you will not see your course listed in the My Courses area of the my ulearn tab. As soon as the course becomes available, the course will be listed in the My Courses area of the my ulearn tab.

## On-Campus Courses:

Course sites for on-campus courses are not available until instructors make them available for student viewing. If you do not see a course listed in ulearn, check with your instructor to see if he/she has turned it on for student viewing.
